

FAMING activity

The media discourse on social media is full of messages, some of which are not positive and even border on real SHAMING.

On Good Deeds Day, we will try to transform the culture of discourse, and move from SHAMING to FAMING!

We want to praise and glorify the good people around us and, in this way, create a human chain of empowerment that will nourish itself. Whoever bothers to give good and strengthening words to his environment improves not only the social climate but also his personal feeling within it! Good Deeds Day is an opportunity to practice the discourse in an empowering group activity! The activity in front of you, from a substantial home, offers you to dedicate time to connecting participants and assimilating the new language by creating a FAMING board for meaningful characters.

In this kit you will find:

1. [Task Facilitators Call-out Array](#)
2. [Task Companion Presentation](#)
3. [Link to send to participants with examples of FAMING boards and ready-to-download templates](#)

We wish for you that Good Deeds Day will be a starting point for a new abundance of good deeds and positive words!

Good luck

The Good Deeds Day And Mahuti Teams
